Pablo Rivas

215-272-9326 | pablo.rivas@temple.edu | linkedin.com/in/pablorivas1 | pablorivas.xyz | Philadelphia, PA

EDUCATION

Central Bucks High School East: 2022

Temple University: Bachelor of Science Computer Science Fall of 2027

TECHNICAL SKILLS

Languages: Java, C, Python, Lua, HTML, CSS, JavaScript, TypeScript

Tools/Platforms: Git, GitHub Pages, Vercel, Node.js, Vite, VS Code, Bash, SSH

Systems/Networking: Linux, DNS Configuration, CLI, System Configuration

PROJECTS

CollegeMeals.app: AI Powered Meal Generator Web App

Developed a mobile-friendly web app using Vite, TypeScript, and CSS to generate recipes based on user-inputted ingredients. Deployed via Vercel with a custom domain and is powered by a backend API on Render that securely interacts with the Gemini API, ensuring API credentials remain hidden from the frontend.

Personal Server: Debian 12 SSH Environment

Configured and managed a self-hosted, headless Debian 12 server with remote SSH access for software testing and game server hosting. Gained experience in server hardening, bash scripting, and network configuration.

PabloRivas.xyz: Personal Portfolio Website

Portfolio website built with HTML, CSS, and JavaScript. Features smooth animations and a clean, modern design. Highlights my experience, projects, and contact details.
